TEN BEAUTY TIPS FOR YOUR WEDDING DAY

1. USE PROPER SKIN CARE

Give Nature a helping hand by starting a basic skin care program at least 2-3 months prior to your wedding. Daily care, a morning and evening regimen, primes your face for the sheer makeup look brides love!

2. USE WATERPROOF MASCARA

Undoubtedly, this is one of the happiest moments of your life and you may shed a few tears of joy. The last thing you want to happen is the photographer taking a picture of your makeup leaving your face before the alter.

3. USE LIP LINER & LIPSTICK

The ultimate kissable lips... Select a lipstick rich in moisturizers and emollients. Line first, use a brush to apply color and reapply for staying power. Add a touch of gloss for shine. Avoid frosted lipstick!

4. USE TRANSLUCENT FACE POWDER

Select powder in a shade closest to your natural skin tone. Translucent powder sets makeup, provides a matte finish and helps control oil breakthrough and shine. Shake your applicator after each use to prevent powder glaze. Pressed powder is portable, so use it throughout the day to pat away shine.

All eyes will be on you. Make sure you are your loveliest.

5. WEAR THE CORRECT FOUNDATION SHADE

This will give your skin a smooth even-toned finish as it guards against environmental elements. Apply with fingertips or sponge using sweeping strokes, blending well especially along the jaw line and hairline. Do not select a shade to match the back of your hand. Select one that closely blends along your jaw line and is not noticeable.

6. USE COLOR HARMONY

Color adds sparkle to your bridal look. To harmonize, simply choose makeup and wardrobe attire with a single undertone, either vibrantly cool, or radiantly warm. Make sure you harmonize lip, cheek and nail color.

7. USE CORRECT CHEEK COLOR APPLICATION

Cheek color should provide a soft glow, never a streaked or blotchy look. For sheer and even application, use a brush and begin by applying it at the base of the hairline near the ear and blend forward using up and down feathery strokes. Wherever you lay the applicator first deposits the most color. Lightly dusk face powder over cheek color to tone.

8. WEAR A FRAGRANCE

A woman's fragrance is her most intimate trademark, an invisible part of herself that can make a lasting impression on other people's senses. The scents you select are your own personal signatures. Never overdo your aroma – make sure the fragrance doesn't arrive before you do! Use fragrance layering techniques to apply body creams, dusting powders and colognes.

9. WEAR MAKEUP

Use the tricks of the beauty trade to accentuate, enhance and define your best features. Color can be applied to compliment any face shape and complexion, regardless of facial contours or bone structure. Minor imperfections and blemishes may be neatly corrected by using concealer. Make sure you have a color "plan" for you and your bridesmaids prior to your wedding day.

10. USE A PROFESSIONAL

Beautiful skin care and color isn't just something you buy – it's something you learn. I don't sell you skin care, I teach you through personal instruction. Learning the correct beauty regimen customized for your skin type and proper color application will guarantee that you'll always look your most beautiful... not just on this most important day, but everyday!
